

PAPER

Paper is made from trees. The more paper we use, the more trees have to be cut down. Ways you can help take care of the earth:

- **Reuse paper** - Use both sides of paper

- **Recycle paper** - Put used paper in the recycle bin instead of in the trash so it can be made into something new.
- **Conserve paper** - Only print from the computer if you really need it. Try to use the smallest amount of paper possible.
